Suomen AsuntoHypoPankki Oy deposit bank offers its customers deposit products, payment cards and residential land trustee services. The deposit bank Suomen AsuntoHypoPankki Oy is a member of the Deposit Guarantee Fund and a wholly owned subsidiary of The Mortgage Society of Finland.

S&P Global Ratings has assigned ‘BBB/A-2’ issuer credit ratings with stable outlook to The Mortgage Society of Finland.

Rating for the covered bonds of The Mortgage Society of Finland is ‘AAA’ (S&P Global Ratings).

OPERATING ENVIRONMENT

The global economic growth weakened in the first quarter of 2019. Closely watched manufacturing purchase manager index continued to decline in the euro area pointing to a slower growth momentum. On the other hand, the stock markets turned around and have increased markedly after the European Central Bank and the Federal Reserve calmed the markets of future interest rate path. ECB stated that policy rates won’t be increased in 2019. Short-term interest rates that follow the ECB’s policy rates remained negative. At the end of March, the 12-month Euribor stood at minus 0.11 percent.

The Finnish economy continued a decent growth in the first months of 2019. Household and business confidence surveys declined slightly, but the level points to growth, albeit at a slower pace, to follow.

Polarization deepened in the housing markets: housing prices rose in growth cities, especially in the Helsinki metropolitan area, but in sparsely populated areas and in areas struggling with population declines prices continued to decrease. At the turn of the year, the housing market cooled of as usual and transaction volumes declined. Housing loan stock rose by 1.9 percent in March from the previous year and the average interest rate on new mortgage loans remained below 1 percent. The loan stock of housing companies continued to rise rapidly due to significant newbuilding.

New apartments boosted housing transaction figures. More homes are completed in the major cities than at any time after 1991. Last year, construction starts totaled 44 000 homes, which will be visible in the market on the coming years. Rents went up by 1,1% year-over-year. New rental apartments in the cities and decreasing demand in the rural

areas will smooth the development in 2019 as well.

In 2018 the economic growth was visible in the labor market. The number of employed persons rose by 40 000 from the previous year, the unemployment rate fell below 7 percent and the employment rate rose above 72 percent. Earnings are increasing by 2 percent while inflation remains close to 1 percent.

RESULTS AND PROFITABILITY

January–March 2019

Hypo Group's operating profit was EUR 1.4 million (EUR 1.5 million for January–March 2018). Income totaled EUR 5.1 million (EUR 4.6 million) and expenses EUR 3.6 million (EUR 3.1 million). An increasing amount of operating profit originated from core business operations. Net interest income continued to grow to EUR 3.4 million (EUR 2.7 million) due to loan portfolio growth and lower funding costs. Net fee and commission income totaled EUR 0.8 million (EUR 0.9 million).

Net income from investment properties (housing units and residential land) amounted to EUR 0.8 million (EUR 0.6 million).

Group's cost-to-income ratio was 71.6% (67.6%).

Group's other comprehensive income EUR 1.7 million (EUR 0.9 million) includes EUR 1.1 million (EUR 1.2 million) profit for the financial period as well as the change in the fair value reserve EUR 0.2 million (EUR -0.2 million), the revaluation of defined benefit pension plans EUR 0.4 million (EUR -0.0 million) and adjustments of retained earnings EUR 0.0 million (EUR -0.1 million).

PERSONNEL AND DEVELOPMENT

On 31 March 2019, the number of permanent personnel was 51 (47 on 31 December 2018). These figures do not include the CEO and the deputy to the CEO.

ASSETS AND LIABILITIES

Lending

The loan portfolio grew to EUR 2,613.8 million (EUR 2,588.9 million on 31 December 2018).

Hypo Group has an entirely residential property-secured loan portfolio.

At the end of the financial period, the average Loan-to-Value ratio of the loan portfolio continued to strengthen and was 35.6% (35.8% on 31 December 2018).

Amount of non-performing loans was low at EUR 2.3 million (EUR 1.8 million on 31 December 2018), representing 0.09% of the loan portfolio (0.07%).

Liquid assets and other receivables

At the end of the financial period, cash and cash equivalents in accordance with the cash flow statement, combined with current account and other binding credit facilities, totaled EUR 666.6 million (EUR 442.4 million on 31 December 2018), which corresponds to 19.7% (14.2%) of the total assets. The cash and cash equivalents which totaled EUR 662.9 million consisted of assets distributed widely across various counterparties, and of debt securities tradable on the secondary market, of which 96.2% (95.4%) had a credit rating of at least 'AA-' or were of equivalent credit quality and 92.2% (95.9%) were ECB repo eligible. Liquidity covers wholesale funding cash flows for the following 48 months. The Liquidity Coverage Ratio was 138.0% (122.6%).

The defined benefit plans surplus of EUR 5.8 million (EUR 5.3 million on 31 December 2018) from the Mortgage Society of Finland's pension fund has been recognized in Group's other assets.

Hypo Group offers rental apartments and residential land for its customers. Hypo Group's properties are located in selected growth centers, mainly in the Helsinki Metropolitan Area. The property in Hypo Group's own use, the Mortgage House, is located in the center of Helsinki. The difference between the fair value and the book value of the properties totaled EUR 5.0 million (EUR 5.1 million on 31 December 2018). Group's properties carry no housing company loans.

Derivative contracts

The balance sheet value of derivative receivables was EUR 12.4 million on 31 March 2019 (EUR 4.6 million on 31 December 2018), and the value of liabilities was EUR 5.9 million (EUR 3.2 million).

Deposits and other funding

Deposits decreased to EUR 1,661.7 million (EUR 1,718.2 million on 31 December 2018). The share of deposits accounted for 51.8% (58.2%) of total funding.

The share of long-term funding of total funding was 42.9% on 31 March 2019 (36.2%).

The total funding at the end of the financial period was EUR 3,206.1 million (EUR 2,954.6 million).

RISK TOLERANCE AND RISK MANAGEMENT

At the end of the financial period, Hypo Group's equity amounted to EUR 123.1 million (EUR 121.4 million on 31 December

2018). The changes in equity during the period are presented in Group's statement of equity attached to this Report.

Group's CET1 capital in relation to risk-weighted assets on 31 March 2019 was 12.2% (12.1% on 31 December 2018). Profit for the financial period is included in the Common Equity Tier 1 capital, based on the statement by the auditors. In measuring credit and counterparty risk, the standardized approach is used. Group's own funds are quantitatively and qualitatively on an excellent level in relation to Group's current and future business. At the end of the financial period, Group's Leverage Ratio was 3.3% (3.5%).

Finnish Financial Supervisory Authority has set an additional capital requirement of one (1) percent to The Mortgage Society of Finland. The requirement is set on the basis of structural features in the financial system (systemic risk buffer) and it shall be met with consolidated Common Equity Tier 1 capital. Additional capital requirement takes effect on 1 July 2019.

There have been no significant negative changes in the risk levels during the financial period. More detailed information on risk management practices and on capital adequacy is published with the Annual Financial Statements.

KEY EVENTS SINCE THE END OF THE FINANCIAL PERIOD

Since the end of the financial period of 1 January – 31 March 2019, no significant changes have occurred in the outlook or financial standing of the Mortgage Society of Finland or its Group.

Evaluation on the renewal of the group's core IT platform after change of control in Oy

Samlink Ab is ongoing. In the evaluation, there are several viable alternatives in addition to the new platform offered by Samlink. The decision in the matter is targeted to take place by the end of 2019.

FUTURE OUTLOOK

Finnish economy grows at a slower pace but employment continues to improve in the next 12 months. Housing loan demand is supported by low interest rates. Urbanization will continue and support the housing market and loan demand in growth cities, while areas with declining population will suffer and polarization between and within areas will deepen. Newbuilding will increase the importance of the largest cities.

Hypo Group focuses on its core business and expects the share of profit made by it to continue to rise following the increase of net interest and net fee income.

Capital adequacy is expected to remain unchanged and the operating profit for 2019 is estimated to reach at least the 2018 level.

NOTES

1. Key accounting policies

This Interim Report applies the same IFRS accounting policies as the Group's Financial Statements on 31 December 2018, with the exception of changes in accounting policies as a result of the new IFRS 16 standard adopted on 1 January 2019. The effects of the adoption of IFRS 16 are described in more detail in Note 3.1. The Interim Report has been prepared in accordance with the IAS 34 standard (Interim Financial Reporting) approved in the EU. No other new standards or interpretations with material effect on Hypo Group's financial position, profit or equity, entered into force in the financial period beginning 1 January 2019.

The Interim Report does not contain all information and Notes that are required in the annual Financial Statements. The Interim Report should be read in conjunction with the Group's Financial Statements 2018 and Stock Exchange Releases published during 1 January to 31 March 2019. The figures in the tables in the Report are presented in thousands of euros.

Parent company of the Group, the Mortgage Society of Finland has its domicile and administrative headquarters in Helsinki. The street address of the Mortgage Society of Finland is Yrjönkatu 9 A, 00120 Helsinki and the mail address is P.O.Box 509, 00101 Helsinki. Hypo is a mutual company governed by its member customers.

The Interim Report has been approved by the Board of Directors of The Mortgage Society of Finland to be published on 26 April 2019. The Interim Report has not been audited.

Hypo Group's business operations constitute a single segment, retail banking.

Hypo Group's consolidated financial statements cover The Mortgage Society of Finland as well as the deposit bank Suomen AsuntoHypoPankki Oy, of which The Mortgage Society of Finland owns 100 percent, and Bostadsaktiebolaget Taos, of which the Group companies own 54.6 percent. The financial statements of AsuntoHypoPankki have been consolidated using the acquisition cost method. Ownership in housing company Bostadsaktiebolaget Taos is accounted for using IFRS 11 Joint Arrangements –standard. Assets, liabilities, revenue and expenses of the joint operations are recognized in relation to Hypo Group's interest in the joint operation. Inter-company transactions and balances between Group companies are eliminated.

2. Issuances and repayments of debt securities and equity instruments

Issuances, repayments and repurchases of debt securities appear on cash flow statement for the period from 1 January to 31 March 2019. Equity instruments have not been issued nor repaid during the period from 1 January to 31 March 2019.

3. Changes in accounting policies

3.1 IFRS 16 Leases

Hypo Group began to apply IFRS 16 as of 1 January 2019. Hypo Group uses the simplified retrospective approach; the prior-year figures will not be adjusted.

Hypo Group as lessee

Practical expedients on assessing whether the leases are onerous and excluding initial costs from the measurement of the right-of-use asset at the time of initial application are also used.

As IFRS 16 requires Hypo Group as lessee recognizes assets for the right of use received and liabilities for the payment obligations entered into for all leases. Hypo Group uses relief options provided for leases of low-value assets. For leases that have been classified to date as operative leases in accordance with IAS 17, the lease liability is recognized at the present value of the remaining payments or when the lease period is not fixed term an appropriate period is determined based on economic and business factors. The remaining lease payments are discounted using the lessee's incremental

borrowing rate. The right-of-use assets will be measured at the amount of the lease liability. Possible advance payments and liabilities will also be accounted for as well as initial direct costs.

The depreciation charges on the right-of-use assets and the interest expense from unwinding of the discount on the lease liabilities will be recognized on the income statement.

The change in the presentation of operating leases will result in an equivalent improvement in cash flows from operating activities and a decline in cash flows from financing activities.

Hypo Group as lessor

All the leases where Hypo in which Hypo Group is the lessor are classified as operative leases. The leased assets continue to be presented on the Hypo Group's balance sheet and the lease payments are generally recognized as income on a straight-line basis over the lease term.

Reconciliation of Lease Liabilities pursuant to IFRS 16

Key indicators and alternative performance measures are reported together with indicators defined and named in the IFRS standards in order to give useful additional information on the business operations. Key indicators and alternative performance measures describe the economic profit, financial standing or cash flows from business operations, but are other than the indicators defined and named in the IFRS standards. The indicators defined in the Capital Requirements Regulation (EU 575/2013) CRR, describe the risk-absorbing capacity of a credit institution.

Definitions of Alternative Performance Measures:**Operating profit/profit before appropriations and taxes, milj. €**

Interest income + income from equity investments + fee income + net income from financial assets at fair value through other comprehensive income + net income from currency operations and securities trading + net income from hedge accounting + income from investment properties + other operating income – (administrative expenses + depreciation and impairment losses on tangible and intangible assets + other operating expenses+ expected credit losses on loans and other commitments)

Return on equity % (ROE)

$$\frac{\text{Operating profit - income taxes}}{\text{Equity + accumulated appropriations less deferred tax liabilities (average total at the beginning and end of the year)}} \times 100$$

Cost-to-income ratio, %

$$\frac{\text{Administrative expenses + depreciation and impairment losses on tangible and intangible assets + other operating expenses}}{\text{Net interest income + income from equity investments + net fee and commission income + net income from currency operations and securities trading + net income from financial assets at fair value through other comprehensive income + net income from hedge accounting + net income from investment properties + other operating income}} \times 100$$

LTV-ratio (Loan to Value, average), %

$$\frac{\text{Receivables from the public and public sector entities}}{\text{Fair value of collateral received against the receivables from the public and public sector entities}} \times 100$$

Loan-to-value ratio is calculated by dividing the outstanding loan balance with the fair value of the total amount of the collaterals allocated to the loan. Only housing and residential property collaterals are taken into account. The average LTV ratio is the weighted average of individual loan-to-value ratios.

Expected credit losses, %

$$\frac{\text{Expected credit losses from loans to the public in P\&L}}{\text{Lending to the public at the end of the period}} \times 100$$

Long-term funding out of total funding, %

$$\frac{\text{Total funding with a remaining maturity of 12 months}}{\text{Total funding}} \times 100$$

Total funding includes liabilities to credit institutions, liabilities to the public and public sector entities, debt securities issued to the public as well as subordinated liabilities.

Short-term liquidity, months

Coverage of short-term liquidity to wholesale funding cash flows (difference of days multiplied with 356 (days in a year) multiplied with 12 (months in a year))

Average number of personnel

Number of personnel includes those in employment relationship during the financial year (excl. The CEO and the COO). Average number of personnel is calculated by dividing the sum of the number of permanent full-time personnel at the end of each month by the total number of months.

Definitions of Key Financial Indicators set out in EU's Capital Requirements Regulation:**Non-performing assets, % of the loan portfolio**

$$\frac{\text{Receivables from the public and public sector entities deemed unlikely to be paid + receivables past due and unpaid over 90 days}}{\text{Receivables from the public and public sector entities}} \times 100$$

Non-performing assets are presented in accordance with the EU's Capital Requirements Regulation (575/2013).

LCR-ratio, %

$$\frac{\text{Liquid assets}}{\text{Outflow of liquidity – Inflow of liquidity (within 30 days)}} \times 100$$

LCR-ratio is calculated in accordance with the EU's Capital Requirement Regulation CRR (EU 575/2013).

Leverage Ratio, %

$$\frac{\text{Tier 1 Capital}}{\text{Total exposure}} \times 100$$

Leverage Ratio, % is calculated in accordance with the EU's Capital Requirement Regulation CRR (EU 575/2013).

Common Equity Tier 1 (CET1) ratio %

$$\frac{\text{Common Equity Tier 1, CET1}}{\text{Total risk}} \times 100$$

The capital requirement for total risk is calculated using the standard method. The capital requirement for operational risk is calculated using the basic method.

Description of Alternative Performance Measures:

Operating profit, profit before appropriations and taxes is an indicator of profitability in the financial statement describing the net revenues from business operations after taking into account expenses, expected credit losses/impairment losses and depreciations.

Return on equity % (ROE) measures profitability of business operations by revealing how much profit is generated in relation to the equity accrued over a financial period. The Mortgage Society of Finland is a mutual company and thus it does not pay dividends.

Cost-to-income ratio, % describes business performance by comparing total costs to total income. The less input is used to accumulate revenue, the better the efficiency.

LTV-ratio (Loan to Value, average), % compares the outstanding balance of credit owed by a customer to the fair value of the collaterals provided by the customer. The ratio reflects a credit institution's lending in relation to its collateral position.

Loans / deposits, % describes the relation of lending to deposit funding. A ratio exceeding 100 per cent indicates that in addition to deposit funding, wholesale funding and equity are used as funding sources.

Deposits out of total funding, % indicator describes the structure of funding.

Long-term funding out of total funding, % the ratio describes the structural funding risk of a credit institution. Long-term funding extends the planning and implementation horizon of the credit institution's funding therefore reducing the risk of having to raise funds under disadvantageous market conditions.

Short-term liquidity, months, describes the coverage of short-term liquidity to wholesale funding cash flows.

Opinion on the review of the 1 January – 31 March 2019 Interim Report of the Mortgage Society of Finland (Translation)

Introduction

We have performed a review of the Mortgage Society of Finland's balance sheet of 31 March 2019, income statement, statement of changes in equity and the cash flow statement for the three months period ended, as well as the summary of significant accounting policies and other Notes. The Board of Directors and CEO are responsible for preparing the Interim Report and ensuring it provides accurate and sufficient information in accordance with the International Financial Reporting Standards (IFRS) approved in the EU, and other statutes and regulations concerning the preparation of the Interim Report in effect in Finland. Based on the review we have performed, we are issuing an opinion on the Interim Report in accordance with the Securities Act Section 2, Article 5a(7).

Scope of review

The review was performed in accordance with the International Standard on Review Engagements 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity'. A review of interim financial information consists of making enquiries, primarily with persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially narrower in scope than an audit conducted in accordance with international standards and recommendations on auditing, and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying Interim Report is not prepared in accordance with the International Financial Reporting Standards (IFRS) approved in the EU and other statutes and regulations concerning the preparation of the Interim Report in effect in Finland. The Report provides accurate and sufficient information on the financial standing of the entity on 31 March 2019 and the result and cash flows of its operations for the three months period ended.
